EXAMINER'S AMENDMENT

Election/Restrictions

Newly amended claims 12-18 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Applicant positively claimed a "counteracting spring" attached to the adjusting means, wherein the spring reduces the adjustment force for moving the flexible support element and does not facilitate the adjustment, which is directed to a different embodiment.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 12-18 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis J.M. Donahue on 12/13/2004 who confirmed the withdrawal and cancellation of the claims.

The application has been amended as follows:

Cancel claims 12-18.
